DC133
The Manual Focus Ladibug™

The red Lumens Ladibug DC133 document camera is the choice for schools looking to replace overhead projectors with modern technology.

This compact, XGA resolution, document camera features a fully adjustable gooseneck design that displays any object from any angle.

The DC133 Ladibug can capture images and play them back from its built-in internal memory, and easily connects to projectors, TVs, and computers. Compatible with all interactive whiteboards.

Key Features

- XGA resolution
- Manual Zoom, Digital Zoom
- Manual focus
- Captures and plays back 9 JPEG images
- Video and Audio recording via USB to computer
