Digital Video Image Processor Board

User's Manual

All manual are subject to change without notification.

WARNING

Before operating the set, please read this manual carefully.

 WARNING RISK OF ELECTRIC SHOCK DO NOT OPEN	
WARNING : The unit is operated at dangerous voltages. The unit may only be opened by an authorized specialist. All maintenance and servicing work must be carried out by an authorized company. Repairs that are carried out incorrectly could result in fatal injuries to the user.	The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.
	
	The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING :

To reduce the risk of electric shock do not remove cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel. To prevent fire or shock hazard, do not expose the rear of the set to rain or moisture. Do not rub or strike the Active Matrix LCD with anything hard as this may scratch, mark, or damage the Active Matrix LCD permanently.

CAUTION:

Unauthorized tampering with the inside of the monitor invalidates the warranty. The manufacturer shall not warrant for any damage caused by improper maintenance and/or repair work by third parties.

Important safeguards for you and your new product:

Your product has been manufactured and tested with your safety in mind. However, improper use can result in potential electrical shock or fire hazards. To avoid defeating the safeguards that have been built into your new product, please read and observe the following safety points when installing and using your new product and save them for future reference.

1. Read Instructions

2. Follow Instructions

All operating and use instructions should be followed.

3. Retain Instructions

The safety and operating instructions should be retained for future reference.

4. Heed Warnings

All warnings on the product and in the operating instructions should be adhered to.

5. Cleaning

Disconnect the unit from the electricity supply before cleaning. Do not use abrasive cleaners. Use a damp cloth for cleaning.

WARNING (cont)

6. Water and Moisture

Do not use this apparatus near water.

7. Transporting Product

A product and cart combination should be moved with care. Quick stops, excessive force and uneven surfaces may cause the product and cart combination to overturn.

8. Attachments

Do not use attachments not recommended by Wrecbue.,Inc. as they may cause hazards.

9. Ventilation

Do not block any of the ventilation openings.
Install in accordance with the manufacturer's instructions.

10. Power Sources

This product should be operated only from the type of power source indicated on the marking label.
If you are not sure of the type of power supply to your home, consult your supplying dealer.

11. Power Lead Polarization

This product is equipped with a three-wire grounding-type cord. This is a safety feature. Do not defeat the safety purpose of the grounding-type cord.

12. Power Cord Protection

Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles and the point where they exit from the product.

13. Outdoor Antenna Grounding

If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. A "face plate" also needs to be installed with an isolating capacitor to prevent any damage from static.

14. Lightning

For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent possible damage to the product due to lightning and power-line surges.

15. Power Lines

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to avoid contact with such power lines or circuits, as contact with them might be fatal.

16. Earthing the product

This product must be earthed properly to comply with the safety regulations in the country of use. If you are unsure of these regulations, please consult a qualified electrician.

WARNING (cont)

17. Servicing

Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltages or other hazards. Refer all servicing to qualified service personnel. If the Set does not operate properly, switch it off and call your dealer.

18. Damage Requiring Service

Isolate this product from the mains supply and refer servicing to qualified service personnel under the following conditions:

- a. If the power-supply cord or plug is damaged.
- b. If the glass front has been damaged.
- c. If there is ingress of water between the glass and the LCD screen.
- d. If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
- e. If the product has been dropped or the cabinet has been damaged.
- f. If the product exhibits a distinct change in performance.

19. Safety Check

Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition and the front seal is intact.

20. Mounting

The product should be mounted on a wall only as recommended in the instructions.

21. Power

This set operates on an AC supply; the voltage is as indicated on the label on the Manual. This appliance must be earthed at all times through the chassis as well as through the power lead.

22. Location

Do not install on an unstable location with support area smaller than the DID SET.
Please secure enough space for safety use.

WARNING (cont)

This product is designed and manufactured with high quality materials and components which can be recycled and reused. This symbol means that electrical and electronic equipment, at their end-of-life, should be disposed of separately from your household waste. Please, dispose of this equipment at your local community waste collection/recycling centre. In the European Union there are separate collection systems for used electrical and electronic product. Please, help us to conserve the environment we live in!

● Interface Description

Interface	Description
HDMI OUT	• High Definition Multimedia Output – only output for the HDMI input.
HDMI IN	• High Definition Multimedia Input 2– up to 3840x2160@60Hz (HDMI2.0)
DP	• DISPLAYPORT Input – up to 3840x2160@60Hz (v1.2a)
RS-232 IN	• Facility to control the screen via RS232 protocol Input
RS-232 OUT	• Facility to control the screen via RS232 protocol Output – Please control by using the SET ID.
USB	• Download - software update
HD-SDI IN	• Serial digital Interface Input (Optional)
HD-SDI Out	• Serial digital Interface Output(Optional)
ETHERNET (RS-232C)	• RS-232C Communication Port via the Ethernet (Optional)

1. MENU OVERVIEW

In this menu system, there are several ways to customize the menu settings provided. Most menus consist of three levels to set up the options, but some require greater depth for the variety of settings. If you press the **MENU** button, up to the third level of the menu system will appear on the monitor screen. The fourth level can be displayed by pressing **OK** button

1) To show and remove the Menu:

Press the **MENU** button on the Remote Control to display the menu. A second press of the **MENU** button or a press of the **EXIT** button will take you back to monitor viewing.

2) To go to the next level:

Press **OK** (or **Right arrow** button) on the Remote Control.

3) To go back to the previous level:

Press **MENU** (or **Left arrow** button) on the Remote Control.

4) To go to the next menu:

Press **Down arrow** button on the Remote Control.

5) To go to the previous menu:

Press **Up arrow** button on the Remote Control.

Audio	Aspect Ratio	16:9
Heat Control	Auto Dimming Mode	1:1
Network	Dimming	
Timer	Max Ambient	
Other Setting	Min Ambient	
	Ambient	

- Selects the screen size.

1. Press the MENU button to select the **PICTURE** mode.
2. Press the OK button (or ► button) and then ▼ button to select **Aspect Ratio** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option:
[Full Screen, Auto, 4:3, 5:4, 16:9, 1:1]
5. Press MENU button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

3) Auto Dimming

- Automatic dimming controls by light sensor in Dimming menu.

1. Press the MENU button to select the **PICTURE** mode.
2. Press the OK button (or ► button) and then ▼ button to select **Auto Dimming Mode** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option:
 - Off** : Adjust the dimming level by the manual operation.
 - On** : Adjust the dimming level by the data of light sensor.
(Light Ambient Sensor Option only)
 - ECO** : Adjust the dimming level of 50.
5. Press MENU button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

4) Dimming

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Contrast	50
Color	Brightness	50
Video Wall	Sharpness	20
PC-RGB	Hue/Saturation	
Audio	Aspect Ratio	Full Screen
Heat Control	Auto Dimming Mode	Off
Network	Dimming	100 
Timer	Max Ambient	300
Other Setting	Min Ambient	100
	Ambient	0

- Manually adjust the brightness of the screen. (Auto Dimming Mode – Off)
(The ability to adjust the Backlight of Panel)

1. Press the MENU button to select the **PICTURE** mode.
2. Press the OK button (or ► button) and then ▼ button to select **Dimming** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option:
5. Press MENU button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

5) Max Ambient / Min Ambient

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Contrast	50
Color	Brightness	50
Video Wall	Sharpness	20
PC-RGB	Hue/Saturation	
Audio	Aspect Ratio	Full Screen
Heat Control	Auto Dimming Mode	Off
Network	Dimming	100

Audio	X Gap	0
Heat Control	Y Gap	0
Network	Set ID	11
Timer		
Other Setting		

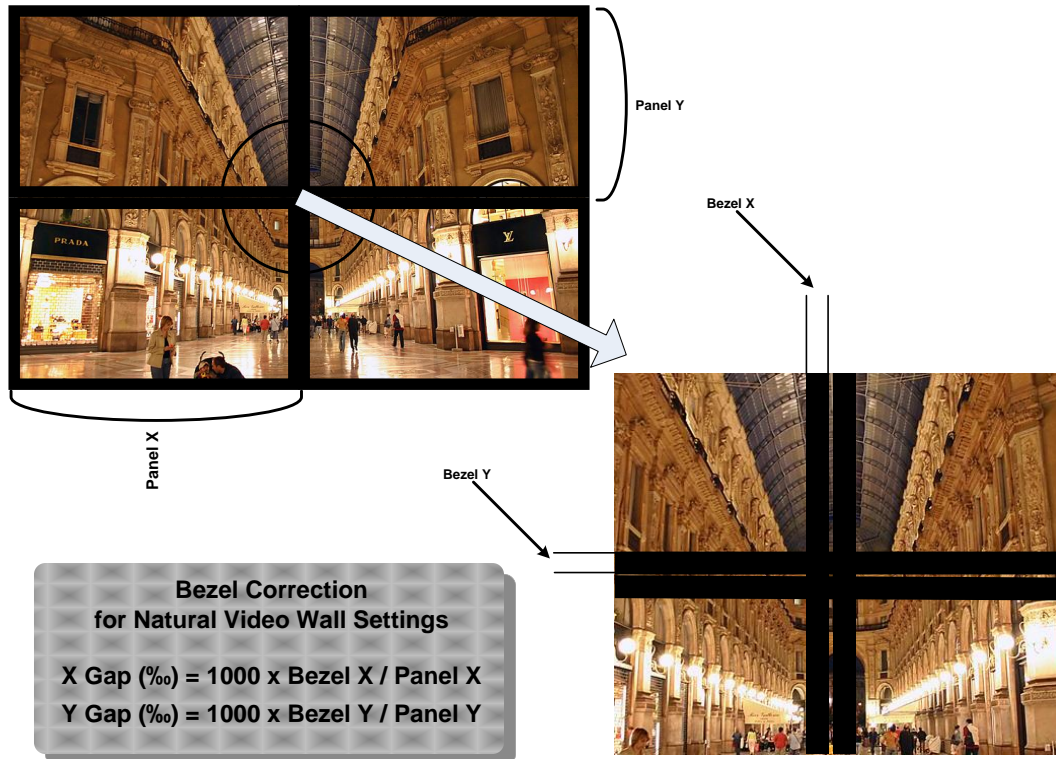

1. Press the MENU button and then ▼ button to select the **Video Wall Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **Second Settings**.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

- **Video Wall Layout Settings**

- X Max** : Maximum number of column tiles to divide video image. (Support up to 11step)
- Y Max** : Maximum number of row tiles to divide video image. (Support up to 11step)
- X position** : Coordinate of video image's column position.
- Y position** : Coordinate of video image's row position.

● Setting the Bezel Corrections for Natural Tiled Image

X Gap : Proportional Value of Vertical Bezel to Panel size by Per-mil unit.

Y Gap : Proportional Value of Horizontal Bezel to Panel size by Per-mil unit.

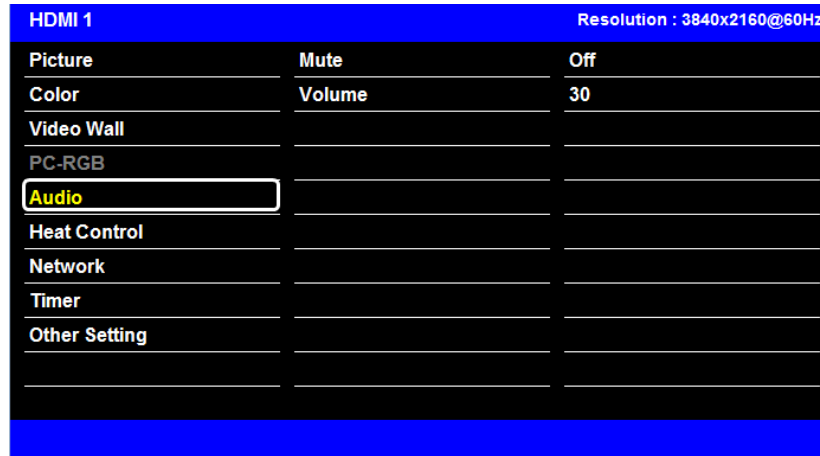

● Set ID & Active Set ID

- Set Active SET ID number Before Control each Board by Remote control or RS-232 (TCP/IP)
- If control only 15th Board, Active SET ID must set 15.

1. Press the **BLUE** button and then use 0~9 button to select the **Active SET ID**.
2. If Press the **RED** button, delete ID number.

6. Audio

1. Press the MENU button and then ▼ button to select the **Audio Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **Second Settings**.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

7. Heat Control Settings

1) Fan Control

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Fan Control	Off
Color	Fan Active Temperature	On
Video Wall	Hysteresis	Auto
PC-RGB	Shutdown	
Audio	Temperature	
Heat Control		
Network		
Timer		
Other Setting		

1. Press the MENU button and then ▼ button to select the **Heat Control Settings**.
2. Press the OK button (or ► button) to select **Fan Control** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.

Or In order to come out at a time, press the **EXIT** button.

Off : Set the fan is always off, regardless of the value of the temperature sensor.

On : Set the fan is always on, regardless of the value of the temperature sensor.

Auto : Fan is automatically driven according to the temperature setting.

2) Heat Control

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Fan Control	Auto
Color	Fan Active Temperature	50.0°C
Video Wall	Hysteresis	2.0°C
PC-RGB	Shutdown	85.0°C
Audio	Temperature	37.0°C

Other Setting		

When apply the LAN sub board, it is possible to serial communication by Ethernet.

- LAN to Serial sub board -

1) Network

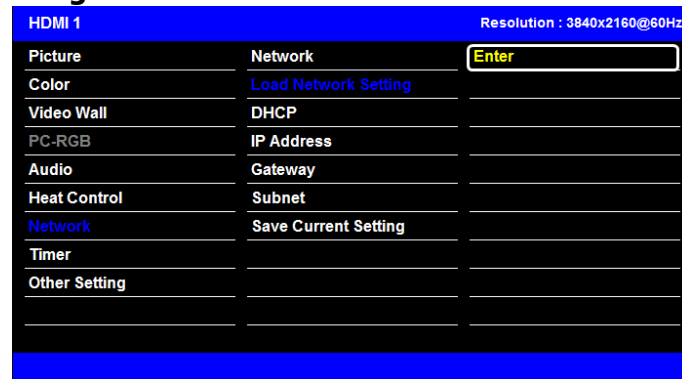

1. Press the MENU button and then ▼ button to select the **Network**.
2. Press the OK button (or ► button) and then ▼ button to select **Network**.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

Disable : Communication connection via a DSUB-9P of Board without the use of a NETWORK.

Enable : Communication connection using a NETWORK.

2) Load Network Setting

1. Press the MENU button and then ▼ button to select the **Network**.
2. Press the OK button (or ► button) and then ▼ button to select **Load Network Setting**.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

Enter : Get the network information that is stored in the LAN sub board.

3) DHCP

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Network	Enable
Color	Load Network Setting	
Video Wall	DHCP	On
PC-RGB	IP Address	174.168.10.7

Heat Control			
Network			
Timer			
Other Setting			

1. Press the MENU button and then ▼ button to select the **Timer Settings**.
 2. Press the OK button (or ► button) and then ▼ button to select **Second Settings**.
 3. Press the OK button or ► button to select **Adjustment** menu.
 4. Press the ▲ / ▼ button to select desired option.
 5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.
- On Time** : Set the time to start automatically.
Off Time : Set the power off time automatically.

10. Other Settings

1) Language - TBD

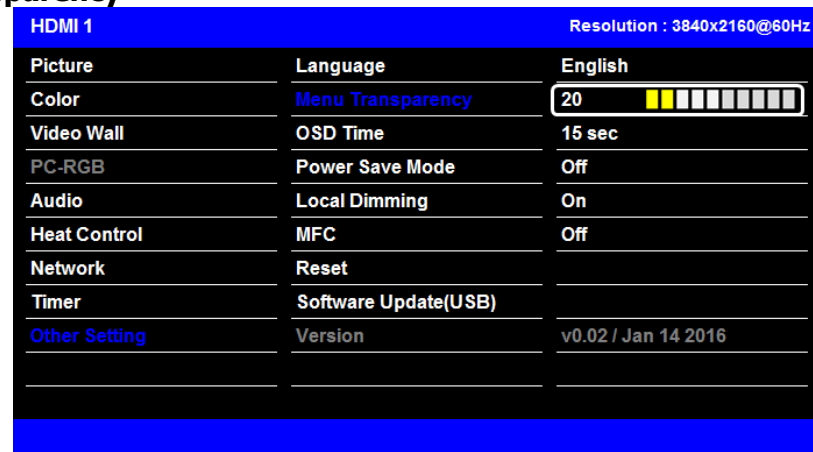

The screenshot shows the OSD menu for HDMI 1. The 'Language' option is highlighted in blue, and its value is 'English'. The menu is displayed on a black background with white text. The top bar shows 'HDMI 1' and 'Resolution : 3840x2160@60Hz'. The menu items are listed in two columns: Picture, Color, Video Wall, PC-RGB, Audio, Heat Control, Network, Timer, Other Setting, Language, Menu Transparency, OSD Time, Power Save Mode, Local Dimming, MFC, Reset, Software Update(USB), and Version. The 'Language' option is currently selected, and its value is 'English'.

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	English
Color	Menu Transparency	20
Video Wall	OSD Time	15 sec
PC-RGB	Power Save Mode	Off
Audio	Local Dimming	On
Heat Control	MFC	Off
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Language might be changed according to the specification of the buyer.

1. Press the MENU button and then ▼ button to select the **Other Settings**.
2. Press the OK button (or ► button) to select **Language** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

2) Menu Transparency

The screenshot shows the OSD menu for HDMI 1. The 'Menu Transparency' option is highlighted in blue, and its value is '20'. The menu is displayed on a black background with white text. The top bar shows 'HDMI 1' and 'Resolution : 3840x2160@60Hz'. The menu items are listed in two columns: Picture, Color, Video Wall, PC-RGB, Audio, Heat Control, Network, Timer, Other Setting, Language, Menu Transparency, OSD Time, Power Save Mode, Local Dimming, MFC, Reset, Software Update(USB), and Version. The 'Menu Transparency' option is currently selected, and its value is '20'.

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	English
Color	Menu Transparency	20
Video Wall	OSD Time	15 sec
PC-RGB	Power Save Mode	Off
Audio	Local Dimming	On
Heat Control	MFC	Off
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Set the OSD transparency.

1. Press the MENU button and then ▼ button to select the **Other Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **Menu Transparency** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

3) OSD Timeout

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	Off
Color	Menu Transparency	5 sec
Video Wall	OSD Time	10 sec
PC-RGB	Power Save Mode	15 sec
Audio	Local Dimming	20sec
Heat Control	MFC	60 sec
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Set the screen duration time of OSD

1. Press the MENU button and then ▼ button to select the **Other Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **OSD Timeout** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

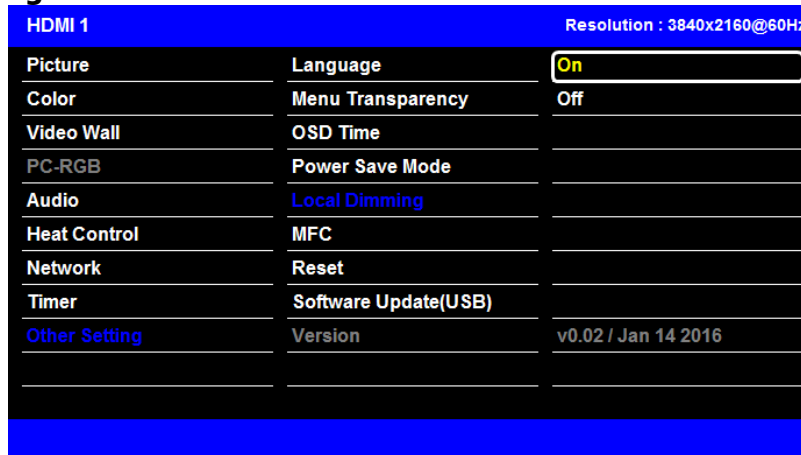

4) Power Save Mode

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	On
Color	Menu Transparency	Off
Video Wall	OSD Time	
PC-RGB	Power Save Mode	
Audio	Local Dimming	
Heat Control	MFC	
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Shut off the panel power after the input source has been unused for some time, to save power.

1. Press the MENU button and then ▼ button to select the **Other Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **Power Save Mode** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

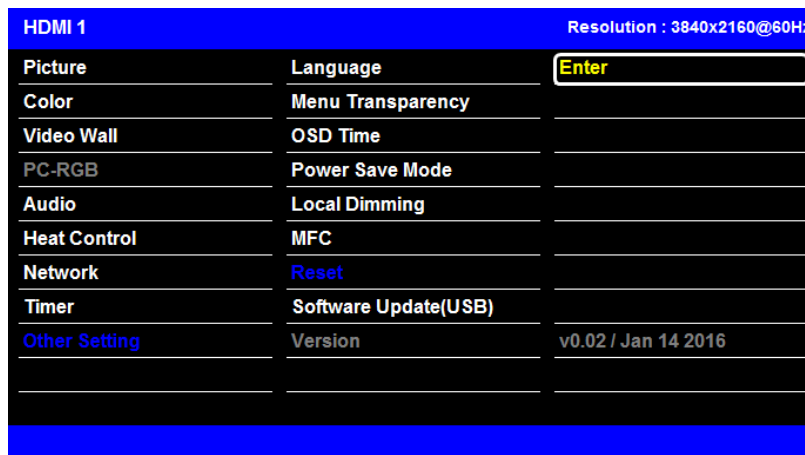

5) Local Dimming

- Set the Local dimming for the particular panel. (LG DISPLAY MODEL – LINKER V03)

1. Press the MENU button and then ▼ button to select the **Other Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **OSD Timeout** menu.
3. Press the OK button or ► button to select **Adjustment** menu.
4. Press the ▲ / ▼ button to select desired option.
5. Press **MENU** button or ◀ button to return to the previous menu.
Or In order to come out at a time, press the **EXIT** button.

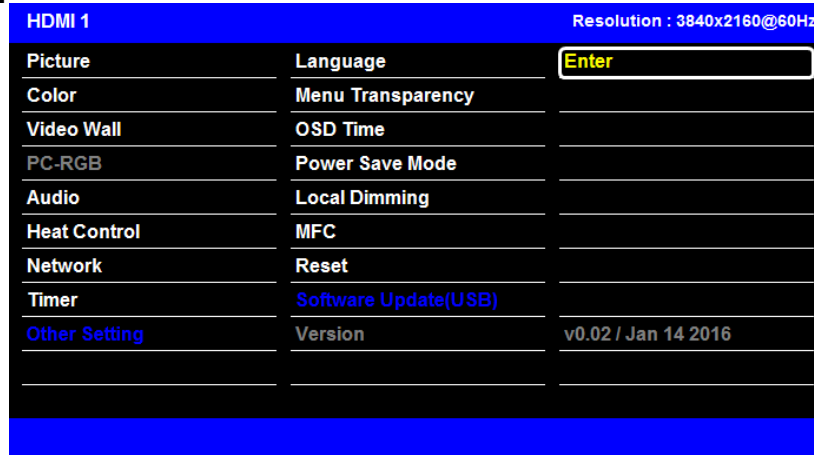

6) Reset

- Initialize that have changed settings on OSD

1. Press the MENU button and then ▼ button to select the **Other Settings**.
2. Press the OK button (or ► button) and then ▼ button to select **Reset** menu.
3. Press the OK button or ► button to select **Enter**.
4. Press the OK button to select.

7) Software Update

– Software update function using the USB MEMORY.

1. Save the update file to a USB stick. (ex) mergy_151223.bin
2. Insert the USB stick into the socket for download.
 1. Press the MENU button and then ▼ button to select the **Other Settings**.
 2. Press the OK button (or ► button) and then ▼ button to select **Software Update** menu.
 3. Press the OK button to select **Enter**.

4. Normal Progress

Please check the USB stick.

USB stick do not plugged in the socket.
(Not be recognized.)

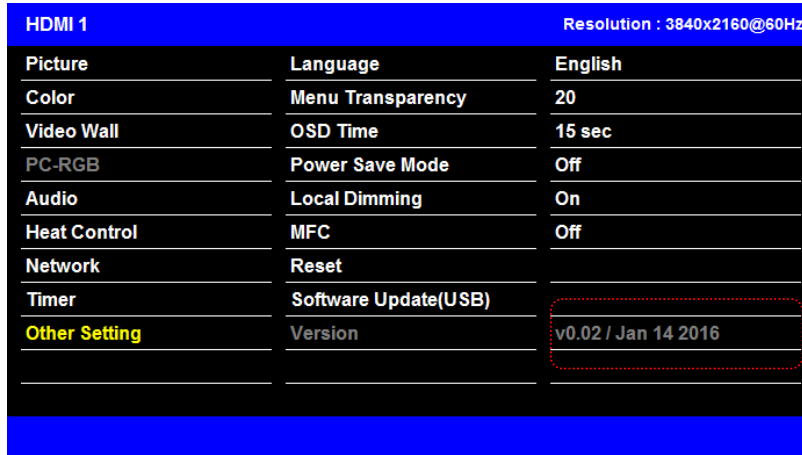

Please check download file.

File for download is not in the USB stick.

5. When the update is successfully completed, the set is automatic reset.

8) Version

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	English
Color	Menu Transparency	20
Video Wall	OSD Time	15 sec
PC-RGB	Power Save Mode	Off
Audio	Local Dimming	On
Heat Control	MFC	Off
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Check the information of the current software.

1. Press the MENU button and then ▼ button to select the **Other Settings**.
(Version / Generated date)

Notice

(1) CURSOURCE Setting Value

AV1:1, AV2:2, SVIDEO:4, COMP1:7, HDIM:11, DVI12, DSUB:10, MMP:15

(2) MAX_ILLUMINANCE Settings

Setting Value = Ambient Level (by LUX) / 100

Ex) Desired Ambient is 10000 Lux, Setting is 100 (= 10000 / 100)

(3) MIN_ILLUMINACE Settings

Setting Value = Ambient Level (by LUX) / 10

Ex) Desired Ambient is 200 Lux, Setting is 20 (= 200 / 10)

(4) DIM_LEVEL Settings

Dimming is controlled by Brightness Settings.

(5) TEMPERATURE Settings

Setting Value = Desired temperature(by Celsius) x 2 + 60

Ex) Desired temperature is 60°C, Setting is 180 (= 60 x 2 + 60)

(6) TEMP_HYSTERESIS Settings

Setting Value = Desired Hysteresis(by Celsius) x 2

Ex) Desired Hysteresis is 2°C, Setting is 4 (= 2 x 2)

(7) ILLUMINACE

Current lux/10. If Cur_lux>2550 then Value=255

(8) Read only Command

(9) Gap Settings

Setting Value =(int) (1000 * Gap / Active)

5) Control Command Packet

5-1) Set Input Source to RGB Input

5-2) Read Power State
